

client testimonials

“ This was the best decision we could have made.”

Anthony Hambey, Birmingham-Southern College
Associate Vice President for IT

Students appreciate the more reliable and faster connection to the internet with Apogee. Now our internet connection is not a problem issue.

Ed Bailey
Associate Director of Computer Services
Marian College

There were many reasons to choose Apogee, but probably the most important was the simplification of our network by cutting it in half.

Anthony Hambey
Associate Vice President for IT
Birmingham-Southern College

“ Network management was greatly reduced. ”

Todd K. Watson, Southwestern University

Students are happy that the registration process is 'painless' and that they have direct phone support. The college is happy because we no longer have to spend many hours on dealing with issues in the residence hall, and there are almost no complaints from students or parents.

Henk Sonder
Director of Network and Telecommunications
Rhode Island College

With the help of Apogee, our ResNet help-line went from filling up the voicemail box every hour to one or two messages a day during the week after move-in.

Pat Hayes
Director of User Support Services
Rhode Island College

Now we have bandwidth need. Students are able to run whatever they like and our network management is greatly reduced.

Todd K. Watson
Associate Director, Systems and Networks
Southwestern University

“ Faster speed, fewer problems. ”

Dana Bekurs, of Birmingham-Southern College
Director of Residence Life

Apogee completely resolved our problems with ResNet. We have been absolutely satisfied. Service and reliability of the network is unmatched. This was the best decision we could have made.

Anthony Hambey
Associate Vice President for IT
Birmingham-Southern College

Personnel time associated with student move-in decreased from 1500+ hours to 64 hours and most of those were unnecessary.

Ed Bailey
Associate Director of Computer Services
Marian College
